

LIFE-C PROMOTING LIFE CYCLE THINKING IN HIGHER EDUCATION

1 LIFE-C SUMMER SCHOOL

LIFE-C Summer School is over! We are glad and humbled that our first edition of the first module "Introduction to Life Cycle Thinking and Assessment" was graduated by 48 students. The students from LUT, NTUA, SUT, Unicusano, and the Associated Partner AGH University (Kraków, Poland) learned the basic understanding of life cycling. They did a splendid job of selecting, discussing, and reviewing the state-of-the-art LCA articles as their assignment. The final presentations were delivered over 6 seminar sessions, and the presentations' quality, accuracy, and insights exceeded our expectations. We wish all the best to the LIFE-C Summer School Graduates in their future careers, PhD dissertations, and in the industry! We believe that your skill and knowledge will support the goals of the sustainable development, which now you are certainly capable of!

2 A NEW ASSOCIATED PARTNER

LIFE-C project welcomes a new Associated Partner - **the Norwegian University of Science and Technology (NTNU)**. After one of the conferences where Prof. Lidia Lombardi presented the project, the Consortium was contacted by prof. Annik Magerholm Fet from the Department of International Business of NTNU. The need to develop LCA-oriented teaching materials for the Norwegian industry and municipalities is highlighted again, and the LIFE-C project Consortium is happy to help participate in this goal!

LIFE-C PROMOTING LIFE CYCLE THINKING IN HIGHER EDUCATION

EVENTS

Presentation of Life-C Project at the Retaste Conference

The Life-C project, along with the results from its first three work packages, was presented at the “RETASTE: Rethink Food Resources, Losses, and Waste 4th International Conference” held in Heraklion, Greece, from September 25-27, 2024. Professor Lidia Lombardi delivered the presentation in the “LCA: Life Cycle Assessment and Social Life Cycle Assessment (S-LCA) of the Different Components of the Farm-to-Fork Value Chain” session.

Presentation of Life-C Project Results at the XVIII Convegno dell'Associazione Rete Italiana LCA 2024

Niccolò Cusano University team presented the objectives of the Life-C project, along with the results of key actions, at the **XVIII Convegno dell'Associazione Rete Italiana LCA 2024**, held at the Università “G. D’Annunzio” Chieti-Pescara – Campus di Pescara, from **July 3-5, 2024**.
